

LAVENDER

RUFFLES COLLECTION

LUXURIOUS COLOURS

The Lavender 'Ruffles Collection' was bred in Victoria Australia by PGA Innovabred, with the objective of developing the best Lavenders in the country to suit Australian conditions (and other environments on a global scale). They bear a wide range of colours and flower from early to mid spring. The chunky bracts on top of the flower heads are distinctively rippled along their margins, to give the ruffled appearance for which the collection has been named.

FEATURES

- Compact variety bred in Australia to suit Australian conditions
- Flowers sit just above the foliage and are more tolerant of humid conditions than other Lavenders currently available
- Long flowering
- Repeat blooms from late winter through to autumn

USES

- Ideal for paths, entrance ways and entertainment areas where the aroma can be appreciated as well as the flower colour
- Striking colour impact
- Medium sized decorative containers
- Low hedges

CARE

Water requirements are low once established. Plant in a sunny location in well draining soil. A light prune after the main flowering flush will encourage a bushy habit. A boost of slow release fertiliser during spring will optimise performance. Provide an occasional long soak during periods of extended heat.

ORIGIN: Victoria, Australia // **SPECIES:** *Lavandula pedunculata* // **PROTECTION STATUS:** PBR Protected
