

## Alyogyne 'Delightfully Double'

### NATIVE HIBISCUS

**Origin:** Victoria, Australia

**Species:** *Alyogyne hybrid*

**Protection Status:** PBR applied for

Full sun Part Shade Height 1.5-1.8m Spread 1.8m Drought tolerant

### Features:

- World's first double flowering Alyogyne
- Beautiful soft purple double blooms
- Spectacular mass of flowers throughout early summer to late autumn
- Low maintenance and drought tolerant

### Suggested Uses:

- Fast growing for new gardens
- Perfect colour and interest for entertaining areas
- Colour display for dry areas

### Water Requirements:

Low. Extremely drought, heat and humidity tolerant.

### Care:

Grows well in most soil types that are well draining. Prune back after flowering to optimise flowering volume in the following season. Apply a slow release native fertiliser as per instructions in order to maximise results.
