

Acacia 'Scarlet Blaze'[®]

WEeping RED WATTLE

Origin: Victoria, Australia

Species: *Acacia leprosa*

Protection Status: PBR protected

Full sun

Full sun/part shade

Height 4-5m

Spread 3m

Features:

- Striking blood red flowers from August to October
- Ornamental, small evergreen tree with a weeping habit
- Hardy. Frost tolerant
- Crushed leaves in warm weather release a cinnamon like fragrance

Suggested Uses:

- Prized showcase specimen – loads of 'wow' appeal
- Screening
- Low maintenance areas
- Native gardens

Water Requirements:

Low. Will tolerate periods of dryness, however occasional deep watering is recommended through extended periods of drought.

Care:

Select a position in full sun to dappled shade in a well drained, moist soil. Cultivate soil before planting; create a hole about twice the width of the container. Place the tree in the hole so that the soil level is aligned with the base of the stem. Water in well.
