

COPROSMA

'IGNITE'

HOT FOLIAGE

Bred in New Zealand, Coprosma 'Ignite' is famed for its intense foliage colour and deep red glossy appearance. Over the winter months, foliage tones change to a purple colour palette adding further interest. 'Ignite' isn't just popular due to its looks, being dry tolerant once established, tolerant of light frosts and overall a very hardy plant.

FEATURES

- Intense deep red foliage in summer and purple tones in winter
- Extremely glossy, vibrant leaves
- Dry tolerant and hardy

USES

- Mixed garden beds
- Informal borders
- Large containers
- Year round colour

CARE

Low maintenance with no special care requirements. Dry tolerant once established, requiring low water. Plant in well drained soil.
