

DAPHNE X TRANSATLANTICA

'ETERNAL FRAGRANCE'

STRONGLY PERFUMED

REPEAT FLOWERING

SUN HARDY

AWARDED 'BEST NEW PRODUCT' AT THE 2011 AUSTRALIAN BUSINESS AWARDS

'Eternal Fragrance' is a multi award winning Daphne suitable for to any garden situation, even well draining containers throughout the year. Unlike many Daphne's available commercially, 'Eternal Fragrance' will thrive in a full sun position and once established, will tolerate dry conditions. With a repeat flowering nature and habit the first flush of soft white flowers will appear in late winter on the tips of the older dark green foliage. Flowers again appear in late spring/early summer. To complete the flowering season you will be rewarded with sweetly perfumed flowers throughout the autumn season.

FEATURES

- Exquisite fragrance
- Repeat flowering -outstanding display in spring with continuing spot flowering throughout the year
- Frost hardy. Heat and dry tolerant – performs in sunny sites without scorching

USES

- Stunning low perfumed hedge or border
- Small gardens, patios and courtyards
- Underplant beneath open tree canopies
- Containers

CARE

Low water requirements. Once established requires only occasional deep watering during periods of extended heat. For optimum results, lightly trim and feed with a slow release fertiliser in summer to maintain shape and vigor. Tolerant of both acid and alkaline soil types.

ORIGIN: United Kingdom // **SPECIES:** *Transatlantica* // **PROTECTION STATUS:** PBR Protected
