

HARDENBERGIA

'WHITE OUT'

FAST GROWING CLIMBER

Native to Australia *Hardenbergia 'White Out'* is a hardy, fast-growing evergreen climber suitable for full sun locations. With delicate sprays of pure white, pea-shaped flowers adorning the plant from mid-winter through to mid-spring they create a beautiful contrast with 'White Out's' attractive lime green foliage.

FEATURES

- Fast growing evergreen climber
- Long, delicate sprays of pure white pea-shaped flowers
- Flowers borne in profusion from mid-winter to mid-spring
- Lime green foliage and stems

USES

- Ideal for covering fences, trellises, archways and pergolas
- Growth habit is low and shrub like. Perfect for low screening purposes

CARE

Will thrive in most conditions that are well draining. Regular pruning is recommended to maintain fresh, vigorous growth – especially after flowering. Plant in full sun for optimum results. Fertilise in spring with a controlled slow release fertiliser. Low water requirements.
