

LOROPETALUM

# 'FLAME'N'GORGEIOUS'

CORAL PINK TASSEL-LIKE FLOWERS

FROM THE SAME BREEDING PROGRAM AND PARENTAGE OF LOROPETALUM 'PLUM GORGEIOUS'

Looking for something a little bit different? Some contrasting foliage perhaps? Then look no further than Loropetalum 'Flame'n'Gorgeous'. Even if it weren't covered in delightful pink tassel-like flowers throughout spring and summer, 'Flame'n'Gorgeous' would be worth growing for its beautiful foliage alone. A medium shrub that boasts a compact, pendulous habit and easy-care nature.

## FEATURES

- Beautiful coral pink tassel-like flowers
- Multicoloured foliage of olive green and bronze with rich burgundy new growth
- Pendulous, compact form with a graceful plant habit
- Low maintenance

## USES

- Ideal as a container plant in tubs to suit small spaces
- Mass plant for a spectacular display
- Informal hedging
- Specimen planting
- Foliage contrast

## CARE

Medium water requirements. Water well in extended dry periods. Tolerant of a wide range of conditions from full sun to part shade. A moist well drained soil will give best results.

**ORIGIN:** Victoria, Australia // **SPECIES:** *Loropetalum chinense* // **PROTECTION STATUS:** PBR Protected
