

Rosemary 'Irene'[®]

CASCADING COLOUR

Origin: USA

Species: *Rosmarinus officinalis*

Protection Status: PBR protected

Full sun Dry tolerant Low mounding Height 75cm Spread 1.75m

Features:

- A low mounding, trailing form of rosemary
- Profuse flowering in mid winter
- Strong blue-violet flowers that resist bleaching

Suggested Uses:

- Excellent as a ground cover
- Cascade over retaining walls, embankments and balconies
- Hanging baskets or vertical gardens
- Water wise gardens

Water Requirements:

Very low - this is a near drought resistant plant. Can tolerate high water levels as long as the drainage remains good.

Care:

Select a full sun location for optimal results. Prune to shape immediately after flowering. Feed with a slow release fertiliser according to manufacturer's directions.
