

Tulbaghia 'Dark Star'^(b)

LONG FLOWERING

Origin: Victoria, Australia

Species: *violacea hybrid*

Protection Status: PBR Protected

Full sun

Full sun/part shade

Height 30cm

Spread 60cm

Dry tolerant

Features:

- Long flowering ornamental display of delicate pink flowers
- Extremely hardy – dry tolerant and also thrives in boggy areas
- Low maintenance and low water user

Suggested Uses:

- Fantastic edging and low borders
- Cottage and country style gardens
- Container and mixed planter displays
- Long colour displays

Water Requirements:

Very low once established. An occasional deep soak during periods of extended heat will keep me happy.

Care:

Grows well in most soil types but prefers a compost rich soil. For optimum results apply a slow release fertiliser just before spring. Pruning generally not required, however if you wish to rejuvenate an old clump, shear back to ground level and new shoots will appear in 6-8 weeks.

Flormart 2012 - Italy
