

Acacia

'Bower Beauty'[®]

LUSH DECORATIVE FOLIAGE

Origin: Mt Gambier, South Australia

Species: *Acacia cognata*

Protection Status: PBR protected

Full sun

Part shade

Height 1m

Spread to 1.2m

Features:

- Compact form - tight, mounded weeping habit
- Fresh, lime green foliage with coppery coloured new growth
- Year round ornamental value
- Dry tolerant
- Easy to grow with minimal maintenance
- Australian native

Suggested Uses:

- Can be mass planted as well as for garden or tub specimen
- Small gardens, patios and courtyards
- Year round interest for general garden use
- Native, exotic, oriental or tropical style garden designs

Water Requirements:

Low. Once established, quite dry tolerant requiring only occasional deep watering during extended periods of heat.

Care:

Plant in most soil types that are well draining. Pruning generally not required. Feed in spring with a native formulated fertiliser for best results. Will tolerate light frost.
