

LOROPETALUM

'BLONDE N GORGEOUS'[®]

WHITE TASSEL-LIKE FLOWERS

FROM THE SAME BREEDING PROGRAM AND PARENTAGE OF LOROPETALUM 'PLUM GORGEOUS'

By name and by nature, *Loropetalum 'Blonde N Gorgeous'* is a must-have evergreen plant this season. In spring and again in autumn it is covered in stunning white tassel-like flowers. Happy in either sun or part shade and dry tolerant once established, *'Blonde N Gorgeous'* is an intelligent choice for any small garden or container and would look striking either as a mass planting or feature shrub.

FULL SUN

PART SHADE

INFORMAL HEDGING

ATTRACTIVE FOLIAGE

HEIGHT 2M
SPREAD 1.5M

FEATURES

- Stunning white tassel-like flowers
- Mid green foliage with caramel coloured new growth
- Pendulous, compact form with a graceful plant habit
- Low maintenance

USES

- Ideal as a container plant in tubs to suit small spaces
- Mass plant for a spectacular display
- Informal hedging
- Specimen planting
- Foliage contrast

CARE

Medium water requirements. Water well in extended dry periods. Tolerant of a wide range of conditions from full sun to part shade. A moist well drained soil will give best results.
