Salvia

Heatwave Collection

BRIGHT COLOUR RANGE

Origin: Melbourne, Australia

Species: *Salvia microphylla* hybrids

Full sun

Part Shade

Height 70cm

Spread 1m

Features:

- Extensive flowering season - throughout warmer months
- Compact, rounded habits
- Very dry tolerant
- Evergreen, aromatic foliage

Suggested Uses:

- Container displays for lengthy colour
- Small gardens, patios and courtyards
- Water wise garden designs
- Ideal for mixed borders
- Suitable for coastal regions and poolside planting
- Bird attracting

Water Requirements:

Low. Once established, quite dry tolerant requiring only occasional deep watering during extended periods of heat.

Care:

Select a sunny location in most soil types which are free draining. Feed in spring with a general purpose fertiliser for the best results. After a main lowering flush, trim the plant by half to encourage further flowering and a denser habit.
