

TIBOUCHINA

'GROOVY BABY'

COMPACT COLOUR

This compact form of the larger growing tree is a breakthrough within this Genus. 'Groovy Baby' makes the perfect container plant for outdoor entertaining areas. One of the main features of 'Groovy Baby' is its cold tolerance, successful in low to zero temperatures and tolerant of low exposure to light frosts. 'Groovy Baby' is a heavy and free flowering plant with stunning almost black flower buds which open to a long flowering deep purple fan of petals.

FEATURES

- Most compact form of Tibouchina currently available
- Large, vibrant purple flowers throughout the warmer months
- Performs in cool climates – unlike most other Tibouchinas
- Very hardy and easy to grow
- Attractive evergreen foliage which is accentuated by seasonal copper tonings.

USES

- Containers and small gardens or spaces
- Mixed borders and rockeries
- Fast results for new gardens
- Long season of colour for entertainment areas

CARE

Low water requirements once established, quite dry tolerant requiring only occasional deep watering during extended periods of heat. Grows well in most soils that are moist but well draining. No pruning generally required. Feed in early spring with a slow release fertiliser for best results.

ORIGIN: Brisbane, Australia // **SPECIES:** *Tibouchina hybrid* // **PROTECTION STATUS:** PBR Protected
